Factory Direct Waterproof And Moisture-Proof Fireproof Bamboo Charcoal Wood Veneer

Bamboo charcoal wood panels, its appearance of texture texture variety of colors, is able to waterproof and moisture resistant wear scratch resistant and easy to bend the edge of the decorative wood veneer panels. Bamboo charcoal wood wall panels are natural bamboo charcoal environmentally friendly panels, can do "no odor", completely eliminating the traditional decoration of non-environmental, formaldehyde-containing drawbacks, bamboo charcoal wall panels due to the addition of bamboo charcoal components and thus have bamboo charcoal environmentally friendly features. Bamboo charcoal wood decorative panels have good compressive strength and abrasion resistance, its durability is much higher than other man-made panels. The specific surface area of bamboo charcoal is more than 3 times that of charcoal, and its porous and dense structure can play a role in adsorption, decomposition of odor and deodorization of sulfide, formaldehyde and other harmful substances. In the test of domestic testing organizations, the environmental protection grade of the board reaches E0 grade, and the flame retardant grade reaches B grade.

Item	Value
