Product Description

Factory Wholesale Discount Simulated Metal Bamboo Fiber Wall Panels

The surface of simulated metal bamboo wood fiber wall panels is very similar to natural marble, and its superior durability and easy installation have captured the hearts of interior designers, architects and environmentally conscious consumers around the world. At the heart of the Faux Metal Bamboo and Wood Fiber Wall Panels is an ingenious combination of bamboo fibers and wood particles, carefully interwoven to form an extremely strong and versatile material. The fabrication of metal bamboo wood fiber wall panels involves a seamless fusion of advanced manufacturing techniques and the natural beauty of the raw materials. Through a high-pressure molding process, bamboo fibers and wood fibers are compressed and bonded together using non-toxic, environmentally friendly resins. This method ensures a strong, moisture-resistant panel with a consistent texture and appearance.

Specification

Item	Value
Material	Bamboo Charcoal Wall Wanel
Size	1220*2440/2600/2800/3000*5/8mm
