## Product Description

### Bathroom High Gloss PET Wall Marble Panels Marble Bamboo Charcoal Board

PET marble wall panels and marble bamboo charcoal wall panels are two different types of wall panels that can be used in bathrooms.

PET Marble Bamboo Charcoal wall panels have a surface made of high quality PET (polyethylene terephthalate) material and an inner wall panel made of bamboo charcoal or bamboo wood fibers. PET Marble wall panels have a high-gloss finish that is designed to mimic the look of real marble, providing a luxurious and elegant appearance to the walls. The high-gloss finish adds a reflective sheen that makes the wall panels visually appealing. These wall panels are also known for their durability, ease of maintenance, and moisture resistance, making them suitable for indoor use. The marble finish provides a natural and luxurious aesthetic, while the bamboo charcoal component adds unique properties. Bamboo charcoal has moisture absorbing and deodorizing properties that make it ideal for indoor use. Bamboo charcoal helps control humidity and eliminate odors, creating a fresh and clean indoor environment. In addition, the combination of marble and bamboo charcoal creates a striking appearance.

#### Specification

Item	Value
Material	Bamboo Charcoal Wall Panel
Size	1220*2440/2600/2800/3000*5/8mm
Length	Customer's Demand
After-sale Service	Online technical support

#### Advantages
