Product Description

Factory Direct Sale Fireproof And Moisture-Proof WPC Fluted Wall Panels

Fire and moisture resistant WPC grooved wall panels are complemented by fire and moisture resistant properties to create elegant and safe interior spaces. Wall panels feature a delicate fluted design that adds depth and character to walls and enhances the overall aesthetic of a space. Designed with safety in mind, WPC grooved wall panels are fire and heat resistant. The material's inherent properties provide an extra layer of protection for peace of mind in interior spaces. Wall panels are engineered to withstand moisture and humidity, and resist moisture and mildew. They are effective in waterproofing, preventing mold growth and ensuring the longevity of the walls. WPC grooved wall panels are made of high-quality wood-plastic composite material for durability. The mix of wood and plastic ensures excellent durability, making it suitable for a variety of applications. Their versatile design can be used in a variety of applications, from wall coverings to decorative accents, adding a touch of elegance and security to your interior spaces.
