## Product Description

### Carbon crystal panel water ripple bamboo charcoal wood veneer wall panels

Water Ripple Bamboo Fiber Wall Panels are made from eco-friendly bamboo fibers that are both elegant and sustainable. The use of renewable materials is in line with modern concepts and has a positive impact on the environment. The wall panels are PVC coated for extra protection against moisture, ensuring excellent water resistance. The PVC layer also adds to the durability and ease of maintenance of the panels. Wall panels are designed for practicality and resist water and moisture. They are effective against water, ensuring long-lasting performance and preventing moisture-related problems, making them ideal for areas such as bathrooms and kitchens. Elevate interior design with elegance and practicality, creating an atmosphere that reflects unique style and enhances the charm of a space. The water ripple design combined with its fire and waterproof properties enhances the interior ambiance and provides visual appeal and practicality.
