Product Description

Factory Direct Sale Environmentally Friendly Odorless Wood Grain Bamboo Fiber Wall Panels

Wood grain bamboo fiber wallboard is a new type of environmentally friendly product made of bamboo fiber extracted from bamboo plants. Striking the perfect balance between beauty and function, this sustainable material replicates the natural beauty of wood grain while delivering impressive performance properties. The wall panels are designed to be water and fire resistant, making them a versatile and durable solution for both indoor and outdoor applications. The carbon footprint of the production of bamboo fiber wall panels is significantly reduced. Bamboo plants absorb large amounts of carbon dioxide as they grow, making them effective carbon sinks that help mitigate climate change. Bamboo siding is biodegradable and recyclable, making it an environmentally friendly alternative to non-biodegradable materials like plastic siding. At the end of its useful life, the panels can be composted or recycled, reducing waste and minimizing environmental impact.

Specification

Item	Value
Material	Bamboo Charcoal Wall Panel
Size	1220*2440/2600/2800/3000*5/8mm
Length	Customer's Demand
After-sale Service	Online technical support

Advantages

Easy Installation, Environmental Protection, Flexible, Bendable, High Density, foldable. Fireproof + waterproof + Moisture-proof + anti-scratch + Sound-Absorbing, Mould-Proof. Lightweight. Clear textures, Variety of colours, etc.

SOFA SETTING WALL

LEISURELY

LEISURELY is a modern and elegant sofa setting wall. It features a combination of dark wood paneling and a blue tufted accent wall. The design is minimalist and sophisticated, perfect for a contemporary living room. The sofa is upholstered in a light beige fabric, complementing the overall aesthetic. The setting wall is made of high-quality materials, ensuring durability and a long-lasting finish. The tufted wall adds a touch of texture and depth to the space. The overall look is clean, modern, and inviting.
