## Product Description

### 8 mm Interior Decoration Bamboo Wood Fiber Wall Panel Fireproof Skin Feeling Wood Veneer

8mm fire-resistant bamboo and wood fiber wall panels, skin-friendly wood veneer, presenting a harmonious fusion of visual charm and sense of security. The skin-touch wood veneer introduces a tactile dimension that appeals to the senses. This finish not only adds visual warmth but also creates an intimate connection with nature. These panels become a tactile canvas, providing a multi-sensory experience that resonates with comfort and authenticity. The fire-resistant properties of the 8mm bamboo fiber wall panels add an added layer of safety that is vital in interior spaces. This feature ensures peace of mind and makes the panels suitable for both residential and commercial environments. These panels have fire-resistant properties, enhancing safety without compromising elegance. 8mm fire-resistant bamboo fiber wall panels can be seamlessly integrated into various design styles. Their ability to combine safety, tactile experience and visual appeal makes them a versatile solution for a variety of interior spaces. In commercial spaces such as hotels, offices or restaurants, these panels become a testament to superior design and safety awareness. The combination of aesthetics and fire-resistant qualities make them an invaluable asset for creating visually appealing and safe environments.

#### Specification

| Item               | Value                          |
|--------------------|--------------------------------|
