Product Description

Interior Decoration Eco-Friendly Wood Grain PVC Wood Veneer Wall Paneling

Bamboo charcoal fiber wood finish is a wall home decorating material. Wood veneer is made from bamboo charcoal wood as a substrate, dusted, glued, heated and laminated. Wood veneer using PUR hot melt adhesive. PUR hot melt adhesive does not emit voc, benzene, formaldehyde and other harmful substances, green; and moisture in the air to react, expand the chain, generating polymer polymers with a high cohesion, strong adhesive force, there will be no peeling, warping, bubbling and other phenomena later. Bamboo charcoal fiber wood finish has better decorative effect, more beautiful and fashionable, green and environmental protection, applicable to wall ceiling. Melting point of low 70 °, paint-free solid exterior coating with glue but non-toxic. With waterproof, fireproof, environmentally friendly odorless, easy to install, high durability, not easy to deform, inexpensive, beautiful, clear and natural texture, can be folded and bent at will, the application of a wide range of high-density, moisture-proof advantages. Suitable for living room, bedroom, study, office, conference room, hall, hotel, super market, airport, store, school and other places.
