Fire Rating	B1

Features:

Product Name: SPC Wall Panel
Thickness: 4mm-8mm
Durability: High
Material: Stone Plastic Composite

Function: Fireproof, Heat Insulation, Moisture

Size: 600mm*2440mm

SPC Wall Panel is a durable and high-quality product that comes in a thickness of 4mm-8mm. Made of Stone Plastic Composite, it is designed to be fireproof, heat-insulating, and moisture-resistant. This product is perfect for those looking for a reliable spc tile or SPC Wall Cladding Panel that will stand the test of time.

Applications:

ZhuoKang SPC wall panel is a high-quality, innovative interior wall panel that is widely used for various occasions and scenarios. This decorative wall panel is made of stone plastic composite material, which makes it highly durable, fireproof, heat-insulating, and moisture-resistant. The product is available in different thicknesses ranging from 4mm to 8mm, making it suitable for different types of interior walls.

The SPC wall panel is an excellent choice for enhancing the interior decoration of homes, offices, hotels, and other commercial buildings. The product's unique design and texture add an element of elegance and sophistication to the interiors. The panels can be used for accent walls, feature walls, and backdrop walls, making them an ideal choice for living rooms, bedrooms, dining rooms, and other areas of the house.

The plastic composite SPC wall panel tile is also an excellent option for bathroom interiors. These panels are waterproof and moisture-resistant, making them perfect for use in shower areas. The panels' fire-resistant properties make them a safe and secure option for bathrooms, as they can prevent the spread of fire in case of an emergency.

Furthermore, the SPC wall panel is an ideal choice for commercial buildings that require high-quality interior wall panels. The panels are easy to install, and their lightweight nature makes the installation process a breeze. The product's fire-resistant properties make them an ideal choice for office buildings, hotels, and other commercial buildings where safety is a top priority.

The SPC wall panel is manufactured in China and shipped through the Qingdao port, ensuring the product's quality and timely delivery. The panels are available in different sizes and colors, making them a versatile option for different interior design needs.

In summary, the ZhuoKang SPC wall panel is a versatile, high-quality, and innovative product that can be used for various occasions and scenarios. Its fire-resistant, heat-insulating, and moisture-resistant properties make it suitable for different applications, including interior decoration, bathroom interiors, and commercial buildings. With its unique design and texture, the product adds an element of elegance and sophistication to any interior space.
