This wooden decorative panel is made of bamboo charcoal, bamboo wood fiber, PVC, and PET. It is a wood charcoal bamboo marble panel that has a thickness of 5/8mm. It is a modern luxury style and has waterproof and eco-friendly features. It is moisture-proof and water-resistant, making it ideal for use in furniture, wall paneling, and cabinetry. The length can be customized to 2.44/ 2.6/ 2.8/ 3/ 3.2/ 3.4/ 3.6 M or as per customer requirements.

Applications:

The bamboo charcoal wood veneer is an excellent choice for various application occasions and scenarios. It can be used as wall panel bamboo for modern home and office designs, creating a unique and sophisticated look. The product is also suitable for commercial spaces such as hotels, restaurants, and cafes, providing a touch of elegance and warmth to the interior design.

The bamboo charcoal wood veneer's fire resistance rating of B2 makes it a safer choice for any space, giving you peace of mind and security. The product comes in a variety of colors, allowing customers to choose according to their preference or color card requirements. This product is an eco-friendly option as bamboo is a renewable resource that grows faster than traditional wood. Bamboo charcoal board is also known for its excellent moisture absorption and odor removal properties, making it ideal for high-humidity areas such as bathrooms and kitchens.

The bamboo charcoal wood veneer is easy to install, making it an excellent choice for DIY enthusiasts and professionals alike. The product's flexibility allows it to be used in various applications, such as furniture, doors, and cabinets, providing a unique and modern touch to any space.

In conclusion, the ZhuoKang bamboo charcoal wood veneer is a versatile and modern product suitable for various application occasions and scenarios. Its environmental benefits, fire resistance, and ease of installation make it an excellent choice for anyone looking to create a unique and sophisticated design in their space.
