Consisting mainly of marble and recyclable resin granules, SPC wall panels are very strong and waterproof products that are easy to install, super durable and colourful, restoring the beauty of natural materials such as wood, marble and stone. Upgrade and transform your project with these fireproof and care-saving panels to give your home space a new look in terms of design as well as functionality. SPC with 70% marble powder content

Thickness	4-8mm
Size	600*3000mm(Length is customisable)
Fire Rating	B1

Applications:

The SPC Wall Panel is available in 4mm and 5mm thickness, making it suitable for different installation needs. The Unilin Lock installation system makes it easy to install, saving time and effort. The click stone design of the SPC wall panel tile is convenient for DIY installation on the wall, and it can also be used as flooring.

SPC Wall Panel can be used in various applications, including residential and commercial interior decoration. It is perfect for use in wet areas, such as the bathroom and shower, due to its waterproof properties. The durability and strength of the material make it suitable for high-traffic areas, such as offices and retail spaces.

The SPC Wall Panel is manufactured in China and shipped from Qiongdiao Port. It is an eco-friendly product that is easy to maintain and clean. It is resistant to scratches, stains, and fading, making it ideal for long-term use.

In conclusion, the SPC Wall Panel is an excellent choice for anyone looking to enhance the look of their interior space. Its waterproof and durable properties make it perfect for use in wet areas such as the bathroom and shower. The Unilin Lock installation system makes it easy to install, and its deep emboss with matte finish provides a stylish look. Order your SPC Wall Panel today and transform your space.
